

CHEMICAL 2

TWO STEP TRUCK WASH SYSTEM

CHEMICAL 2 is the second step of a two step cleaning system designed to be used with a two step cold water high pressure washer. This system was designed to clean over-the-road trucking equipment such as trailers and tractors. This two step system when used as directed, is the most efficient cleaning system available today. It's rich high alkaline foam quickly attacks dirt and grime and yet rinses quickly without streaking. This alkalinity also neutralizes any unspent acid of the first step.

SPECIFICATIONS:

Physical Appearance.....Clear, purple liquid
 Odor.....Slight surfactant
 Specific gravity.....1.050
 ph.....12.8(concentrate)
 Viscosity.....1 centistoke at 25 C
Biodegradable.....yes
 Freeze point.....-6 C
 Phosphorous as % p.....1.0%
 Flash point.....None

DIRECTIONS: Using the machines electronic switching mechanism, switch to the CHEMICAL-2 step and apply from the bottom up. Switch to the rinse cycle of the pressure washer and detail clean from the top down. Always keep the pressure nozzle more than inches from the surface while detail cleaning. Never clean an area larger than you can reach while standing in one position. Do not allow any of these solutions to dry on surfaces. Do not use on glass, polished or anodized aluminum.
