

EHA HIGH ALKALINE SPRAY CABINET POWDER

EHA HIGH ALKALINE SPRAY CABINET POWDER is a non-foaming blend of alkalinity builders, sequestrants and defoamers designed to be used in recirculating spray cabinet cleaners. **EHA** is a highly concentrated caustic cleaner that saves labor by cleaning quickly without using large amounts of chemical. Spent solutions of spray cabinet degreasers releases oil easily making them easy to dispose of. This special designed formula does not contain phosphates and has an extremely low cod level.

SPECIFICATIONS:

Physical Appearance.....	White powder
Odor.....	Musty
Specific Gravity.....	N/A
pH.....	13.5 (use dilution)
Viscosity.....	N/A
Biodegradable	Yes
Freeze point.....	N/A
Phosphorous as % P.....	0%
Flash point.....	None
