

SC-113-45 HOOD CLEANER

SC-113-45 Hood Cleaner is a highly concentrated caustic cleaner designed for use in food processing and industrial cleaning applications. Its surfactants and alkalinity penetrates and emulsifies greasy baked-on soils found in ovens, fryers, racks and trays used to cook foods. This super duty cleaner maintains a pH of 12.5 at a dilution of 100 to 1. SC-113-45 is especially effective at quickly removing animal and vegetable oils from all surfaces.

SPECIFICATIONS

Physical Appearance.....	Clear, red liquid
Odor.....	Musty, odor
Specific Gravity.....	1.180
ph.....	Above 14(concentrate)
Viscosity.....	5 centistokes
Freeze point.....	-10 C
Phosphorous as % p.....	None
Flash point.....	None

DIRECTIONS

Use the product at 1 to 10 percent of solution strength depending on soil build-ups to be removed. Adjust the concentration metering or injection devices to obtain the desired results. In vat cleaning operations, use at 140 to 200 F. Do not use undiluted on composition floors or water based paints. Do not use on aluminum, zinc galvanizing, copper or their alloys..

This product rapidly attacks aluminum and zinc.

DANGER

CORROSIVE . Causes severe burns to eyes and skin very rapidly. Wear goggles, neoprene gloves and rubber aprons when handling product. **KEEP OUT OF REACH OF CHILDREN..**
