

QR-1000

QR-1000 is an optimized surfactant for use in water based degreasing and vehicle cleaning formulations. ***QR-1000*** is highly efficient in the removal of organic soils such as grease, oil and road film. Degreaser and vehicle cleaner formulations based on ***QR-1000*** offer excellent cleaning performance for use on vehicles, engines and metal parts (metal working applications).

Application of chemicals using ***QR-1000*** can be done using both high pressure and low pressure cleaning equipment. ***QR-1000*** is a combination of complexing agents and builders making it an excellent surfactant for water based degreasing and vehicle cleaning chemicals.

QR-1000 is **Biodegradable, Non-Corrosive** and completely **Environmentally** friendly. ***QR-1000*** is a non-ionic, non-cationic surfactant used for touchless cleaning chemicals. ***QR-1000*** causes a quicker oil separation, and has a higher salt tolerance.

Look for all the ***Etowah Chemical*** products that we offer that are enhanced with ***QR-1000***.
