

SC-747

NON-ACID ALUMINUM CLEANER

SC-747 is specially formulated to clean aluminum trucks, buses, trailers, and even wire wheels. A powerful combination of alkalinity builders, chelating agents and biodegradable detergents. **SC-747** dissolves corrosion, emulsifies oil, disperses dirt, gives aluminum a dazzling satin finish all in one step. **SC-747's** liquid form is easy to handle and apply. When properly diluted safe to plastic, rubber and decals. This concentrated product is specially designed to be used instead of hydrofluoric acid based cleaners.

SPECIFICATIONS:

Physical Appearance.....	Amber color, liquid
Odor.....	Slight musty odor
Specific Gravity.....	1.100
pH.....	13.7 (concentrate)
Viscosity.....	1 centistoke
Biodegradable	Yes
Freeze Point.....	-6.5
Phosphorous as %P.....	0.1

DIRECTIONS:

When used in pressure washing equipment, **SC-747** may be diluted 2 to 4 ounces per gallon of water. Adjust concentration metering or injection device to obtain the desired results. A concentration of 4 to 6 ounces is recommended for manual cleaning rinse thoroughly. Always apply chemical mixture from bottom to top. Care should be taken not to allow chemical solution to dry on any cleaned surface.

DANGER:

Contains sodium hydroxide, biodegradable detergents and chelating agents. Avoid contact of undiluted products with skin or eyes. Avoid continued inhalation of mists in spraying or other applications. Wear goggles and rubber gloves when using in power washing equipment.

FIRST AID:

If eye or skin contact occurs, flush thoroughly with water for 15 minutes. If ingested, give water or milk. Do not induce vomiting. Get medical attention immediately.
