Biodegradable.....	yes
Freeze Point.....	-6 C
Phosphorous as % P.....	0.75
Flash Point.....	None

DIRECTIONS

- ◆ Heavy grease build-up-Dilute 1 to 1.
- ◆ Medium grease and soil-Dilute 1 : 2 to 1 : 5
- ◆ Regular cleaning and pressure washing-1 : 50-1 : 75.

SC-HB-50 is a highly concentrated detergent and needs to be diluted with water prior to use. When used through high pressure equipment, set the metering valve at desired dilution rate and detail clean from the bottom to the top. When cleaning is completed, rinse with clear water from the top down. Do not allow to dry on painted surfaces.

CAUTION: Avoid eye and skin contact. Wear goggles, neoprene gloves and face shields when handling product..
