

SURGE

NON-PHOSPHATE CAR AND TRUCK WASH

Surge is specially designed to used where there are stringent limitations on discharge waters. Each batch is carefully tested to ensure that it is phosphate free and has a pH below 9.0. An all-purpose detergent gentle enough to use all day, put Surge to work where harsh alkaline cleaners create health hazards or damage finishes. Surge produces abundant long-lasting suds.

Surge quickly removes dirt and road film. It will not streak or harm waxed surfaces. is more economical because it is concentrated, 3 to 4 cars can be washed from one bucket of solution. Surge gets the dirt with foam, on all types of fabrics, where water alone could be used. It leaves no dull soap film.

SPECIFICATIONS:

| | |
|--------------------------|----------------------------|
| Physical appearance..... | Clear, yellow-green liquid |
| Odor..... | Lemon odor |
| Specific gravity..... | 1.010 |
| pH..... | 8.-9.0 (at room temp) |
