

# WC-1

## OIL WATER SEPARATOR CHEMICAL

\*\*\*\*\*

**WC-1** is designed specifically for use in oil/water separators to break oil/water emulsions in the waste stream so they may be discharged quickly. WC-1 is an excellent water conditioner to improve color and clarity.

### DESIGN FEATURES

- ▶ Flocculate suspended solids
- ▶ Odor control
- ▶ Reduces B.O.D. and C.O.D.
- ▶ Inhibits corrosion
- ▶ Softens water
- ▶ Improves color and clarity

### SPECIFICATIONS:

Physical Appearance.....	Opaque liquid
Odor.....	Slight odor
Specific Gravity.....	0.98
pH.....	6.5-7.5
Viscosity.....	1 centistoke
<b>Biodegradable</b> .....	yes
Freeze point.....	-5 C
Phosphorous % P.....	None
Flash point.....	None

### DIRECTIONS:

1. Chemically inject WC-1 to initial lift station at a rate of 1-5 qts per week per 1000 gallon of system volume.
2. Mix or shake drum once a week for better results.

### FOR INDUSTRIAL/COMMERCIAL USE ONLY.

### CAUTION:

Keep containers tightly closed when not in use. Do not take internally. Prolonged contact with skin causes irritation. Contact with eyes cause severe irritation. See the msds for further information
